

## SpeedDome® Optima Fixed Drone Housing

### FEATURES

- Easy installation
- All metal back box construction
- Suitable for installation in open plenum ceilings
- Compact, attractive design
- Identical in appearance to the SpeedDome Optima
- Provides fixed camera capability with appearance of a programmable dome
- Powerful visual deterrent
- Comes with long and short camera mounting brackets

The SpeedDome Optima Fixed Drone Housing provides customers with a value driven in-ceiling alternative to the conventional dome products.

The tilt table camera mounts are designed to accommodate most camera and lens combinations. The top hat is quick and easy to install and can be used in a variety of indoor applications.

The SpeedDome Optima Fixed Drone Housing has a plenum-rated back box which can be installed in a hard ceiling or standard 61 x 61 cm (2 x 2 ft) suspended ceiling.

This in-ceiling drone cosmetically matches our programmable SpeedDome Optima and can be integrated in an existing Optima installation for overall aesthetic continuity.

## SPECIFICATIONS
